

Intimate Care Policy

EYFS: 3.1, 3.6, 3.27 3.20, 3.60, 3.64, 3.73

At Green Roots we believe that all children need contact with familiar, consistent carers to ensure they can grow and develop socially and emotionally. At times children need to be cuddled, encouraged, held and offered physical reassurance.

Intimate care routines are essential throughout the day to meet children's basic needs. This may include nappy changing, supporting children with toileting, changing clothes, and giving first aid treatment and specialist medical support, where required.

In order to maintain the child's privacy, we will carry out the majority of these actions on a one-to-one basis, wherever possible, by the child's key person with the exception of first aid treatment which must be carried out by a qualified first aider.

We wish to ensure the safety and welfare of children during intimate care routines and safeguard them against any potential harm as well as ensuring the staff member involved is fully supported and able to perform their duties safely and confidently. We aim to support all parties through the following actions:

- Promoting consistent and caring relationships through the key person system in the nursery and ensuring all parents understand how this works
- Ensuring all staff undertaking intimate care routines have suitable enhanced DBS checks
- Training all staff in the appropriate methods for intimate care routines and arranging specialist training where required, i.e. first aid training, specialist medical support
- Ensuring children are afforded privacy during intimate care routines whilst balancing this with the need to safeguard children and staff. No nappies will be changed or intimate routines take place behind closed doors
- Conducting thorough inductions for all new staff to ensure they are fully aware of all nursery procedures relating to intimate care routines
- Following up procedures through supervision meetings and appraisals to identify any areas for development or further training
- Working closely with parents on all aspects of the child's care and education as laid out in the Parent and Carers as Partners Policy. This is essential for intimate care routines which require specialist training or support. If a child requires specific support the nursery will arrange a meeting with the parent to discover all the relevant information relating to this to enable the staff to care for the child fully and meet their individual needs
- We will enable a two-way exchange between parents and key persons so that information is shared about nappy changing and toilet training in a way that suits the

parents and meets the child's needs. Parents will be engaged in the process of potty training and supported to continue potty training with their child at home.

- Ensuring all staff have an up-to-date understanding of safeguarding/child protection and how to protect children from harm. This will include identifying signs and symptoms of abuse and how to raise these concerns as set out in the safeguarding/child protection policy
- Operating a whistleblowing policy to help staff raise any concerns about their peers or managers; and helping staff develop confidence in raising worries as they arise in order to safeguard the children in the nursery
- Conducting working practice observations on all aspects of nursery operations to ensure that procedures are working in practice and all children are supported fully by the staff. This includes intimate care routines
- Conducting regular risk assessments on all aspects of the nursery operation including intimate care and reviewing the safeguards in place. The nursery has assessed all the risks relating to intimate care routines and has placed appropriate safeguards in place to ensure the safety of all involved.

Nappy Changing

We will use appropriate designated facilities for nappy changing which meet the following criteria:

- Facilities are separate to food preparation and serving areas and children's play areas
- Changing mats have a sealed plastic covering and are frequently checked for cracks or tears. If cracks or tears are found, the mat is discarded.
- Clean nappies are stored in a clean dry place; soiled nappies are placed in a 'nappy sack' or plastic bag before being placed in the bin. Bins are foot-pedal operated, regularly emptied and placed in an appropriate waste collection area. Other than our tubes of nappy cream, nappy creams are supplied by the parent/guardian and must be clearly labelled with the child's name. Prior written permission is obtained from the parent. When applying creams for rashes, a gloved hand is used.

Staff changing nappies will:

- Use a new disposable apron and pair of gloves for each nappy change and always wash/sanitise hands before and after using gloves
- Clean/disinfect and dry mats thoroughly after each nappy change; disposable towels/roll must be discarded after each nappy change
- Ensure they have all the equipment they need and access to fresh water before each nappy change.

We wish to ensure the safety and welfare of the children whilst being changed and safeguard against any potential harm, as well as ensuring the staff member involved is fully supported

and able to perform their duties safely and confidently. We aim to support all parties through the following actions:

- Using this one-to-one time as a key opportunity to talk to children and help them learn, e.g. through singing and saying rhymes during the change
- Ensuring that the nappy changing area is inviting and stimulating and change this area regularly to continue to meet children's interests
- Ensuring all staff undertaking nappy changing have suitable enhanced DBS checks
- Training all staff in the appropriate methods for nappy changing
- Ensuring that no child is ever left unattended during the nappy changing time
- Making sure staff do not change nappies whilst pregnant until a risk assessment has been discussed and conducted; and that students only change nappies with the support and close supervision of a qualified member of staff
- Conducting thorough inductions for all new staff to ensure they are fully aware of all nursery procedures relating to nappy changing
- Ensuring hygiene procedures are followed appropriately, e.g. hands washed/sanitised before and after nappies are changed and changing mats cleaned before and after each use

If any parent or member of staff has concerns or questions about intimate care or nappy changing procedures or individual routines, please see the manager at the earliest opportunity.
