

## Green Roots Aims and Objectives

Green Roots Nursery and Pre-school provides quality childcare for babies and children from the ages of 3 months to school. Our holistic approach means we support children in their learning journey to enable them to fulfil their potential. We work in partnership with parents and carers and we strive to provide equality of opportunity to every child. This period of a child's life plays a major part in their future life opportunities. We recognise that every child is unique and needs positive relationships and enabling environments to learn and develop at their own rates and in their own way. We promote teaching and learning to ensure children's school readiness and help set the right foundations.

## Vision and Values

At Green Roots we firmly believe that every child is a competent learner from birth who can be resilient, capable, confident and self-assured. We support children to become strong and independent from a base of loving and secure relationships with parents and a Key Person. Our ethos aims to create a positive and enabling environment in which they can flourish.

We recognise and value the uniqueness of every child and their right to enjoy their childhood, to be kept safe, to have their physical, social and emotional needs met, to be listened to so that they are nurtured holistically. We put the children at the heart of what we do so that they acquire the knowledge and skills they need to be able to move to the next stage of their education. We strive to work in partnership with parents and families, listening to and valuing all.

Every member of our team 'signs up' to the Green Roots vision and values and takes ownership of them.
